# HOUSEHOLDS WHO REGISTER CHOOSE HOW TO FILL THE CENSUS QUESTIONNAIRE

VISIT

A fieldworker visits households and administers the census questionnaire on a hand-held device with the respondent.

Stats SA Fieldworkers will only visit you to verify if indeed you managed to do self-enumeration - your reference number must be kept safe for this verification purpose.

ONLINE

Registration  
open until further notice

A link will be sent via cellphone or email to complete the census questionnaire. The link will be provided to households after registering for this collection mode.

PHONE

Registration  
open until further notice

A confirmation of registration is sent to indicate that respondents will be called by a Stats SA clerk on specific dates.

A clerk will call on the specified date and administer the questionnaire via the telephone with the respondent.

# THE BENEFITS OF REGISTERING FOR **CENSUS 2022**

Respondents get to choose an option for their preferred mode of completing Census Questionnaire – online, by telephone, or to be visited by a Census fieldworker.

If you choose online questionnaire completion, you get to do this datafree at your own convenience anywhere you are – within the predetermined dates.

If you opted for telephonic questionnaire completion, then you can choose the time that is convenient to you during which a Stats SA official will call you to complete the questionnaire.

If you prefer to be visited by a census fieldworker, the questionnaire completion will be conducted at the comfort of your own home – with strict adherence to the COVID-19 protocols by Stats SA fieldstaff.
